REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record for example Ashida et al. US patent No. 5,933,796 details showing a list of tables and selecting a desired table of the data warehouse to view (fig. 18 and 19 and related text) also Barnett et al shows item laid out in a tabular format apparently selectable to view further item or items (fig 7B and 13). However the art of record does not detail or suggest the following elements as set forth in claim 1, "displaying a grid on a display device, said grid being an iconic representation of said formatted warehoused data, said grid comprising elements, each element corresponding to some portion of said formatted warehoused data; and displaying a portion of said formatted warehoused data on said display device in response to a selection of a corresponding element of said grid." Claim 9 includes the same elements as set forth above and claims 2-8 and 10-16 are dependent from claims 1 or 9 and are thus also allowable over the art of record. As to claims 17 through 30 the art of record as represented by Papierniak patent No. US 6671689 B2 shows a hierarchical view that summarizes the schema of the data warehouse, and Castelli et al shows a system that collects hieratical aggregates however the art of record does not show or suggest the elements as claimed in claim 17 of "distilling said formatted warehoused data into a plurality of hierarchical overviews, wherein a hierarchal overviews comprises a subtotal of selected entries from said formatted warehoused data; and receiving a hierarchical overview in response to a first inquiry.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
